IPADS

iPad Pro 13”

- Connectivity: Wi-Fi & Cellular
- Screen Size: 13 inches
- Display Resolution: 2752 × 2064
- Battery Life: Up to 10 hours
- Storage Options: 256GB, 512GB, 1TB, 2TB
- Processor: M4 chip

iPad Pro 12.9”

- Connectivity: Wi-Fi & Cellular
- Screen Size: 12.9 inch
- Display Resolution: 2732 × 2048
- Battery Life: Up to 10 hours
- Storage: Up to 256GB

iPad Pro 10.5”

- Connectivity: Wi-Fi & Cellular
- Screen Size: 10.5 inches
- Display Resolution: 2224 × 1668
- Battery Life: Up to 10 hours
- Storage: 64GB, 256GB, and 512GB

iPad 11th Gen

- Connectivity: Wi-Fi & Cellular
- Screen Size: 10.9 inches
- Display Resolution: 2360 × 1640
- Battery Life: Up to 10 hours
- Storage Options: 256GB, 512GB, 1TB, 2TB
- Processor: A16 chip

iPad 10th Gen

- Connectivity: Wi-Fi & Cellular
- Screen Size: 10.9 inches
- Display Resolution: 2360 × 1640
- Battery Life: Up to 10 hours
- Storage Options: 256GB
- Processor: A14 chip

iPad 9th Gen

- Connectivity: Wi-Fi & Cellular
- Screen Size: 10.2 inches
- Display Resolution: 2160 × 1620
- Battery Life: Up to 10 hours
- Storage Options: 256GB

iPad 8th Gen

- Connectivity: Wi-Fi & Cellular
- Screen Size: 10.2 inches
- Display Resolution: 2160 × 1620
- Battery Life: Up to 10 hours
- Storage Options: 32GB and 128GB

iPad 7th Gen

- Connectivity: Wi-Fi & Cellular
- Screen Size: 10.2 inches
- Display Resolution: 2160 × 1620
- Battery Life: Up to 10 hours
- Storage Options: 32GB and 128GB

iPad Mini 5

- Connectivity: Wi-Fi & Cellular
- Screen Size: 7.9 inches
- Display Resolution: 2048 × 1536
- Battery Life: Up to 10 hours
- Storage Options: 64GB or 256GB

LAPTOPS

Apple MacBook Pro

- Operating System: Mac OS
- Screen Size: 13” or 15”
- Processor: M5 Chip 10-Core Apple CPU
- RAM: 16GB
- Storage: Up to 512GB SSD

MSI Gaming

- Model: MSI Katana 15HX 15.6"
- Operating System: Windows
- Screen Size: 15.6” or 17.3”
- Processor: Intel Core i7 (14th Gen)
- RAM: Up to 32GB
- GPU: RTX 5070 8GB GDDR7
- Storage: Up to 1TB M.2 NVMe

Lenovo ThinkPad

A reliable business laptop designed for productivity, performance and everyday professional use.

- Model: T14/s & P14/s
- Operating system: Windows
- Screen Size: 14”
- Processor: Intel i7 (11th Gen) & AMD Ryzen 7 (Zen 3)
- RAM: Up to 32GB
- Storage: Up to 512GB M.2 NVMe

HP

- Model: ProBook Series
- Operating System: Windows
- Screen Size: Available from 14” to 17”
- Processor: Intel Core i5 / i7 (11th Gen)
- RAM: 16GB
- Storage: Up to 512GB SSD

Dell

- Model: Latitude Series
- Operating System: Windows
- Screen Size: Available from 13” to 15”
- Processor: Intel Core i5 / i7 (11th Gen)
- RAM: 16GB
- Storage: Up to 512GB M.2 NVMe

Microsoft Surface Pro

A mobile device that can easily adapt from a tablet, to laptop to a full creative studio.

- Operating System: Windows
- Screen Size: 12.3”
- Display Resolution: 2736 × 1824
- Processor: Intel Core i5 (10th Gen)
- RAM: 8GB
- Storage: Up to 512GB SSD

ONEWORLDRENTAL

HIGH-END COMPUTING

Gaming Laptops

With technological advancement, laptops have more powerful processing capability than ever; some of which now outperform desktop computers through a range of impressive specifications.

Renowned industry names, such as MSI, offer cutting-edge laptops, capable of running multiple complex operations simultaneously. These are ideal for technically advanced projects and video games.

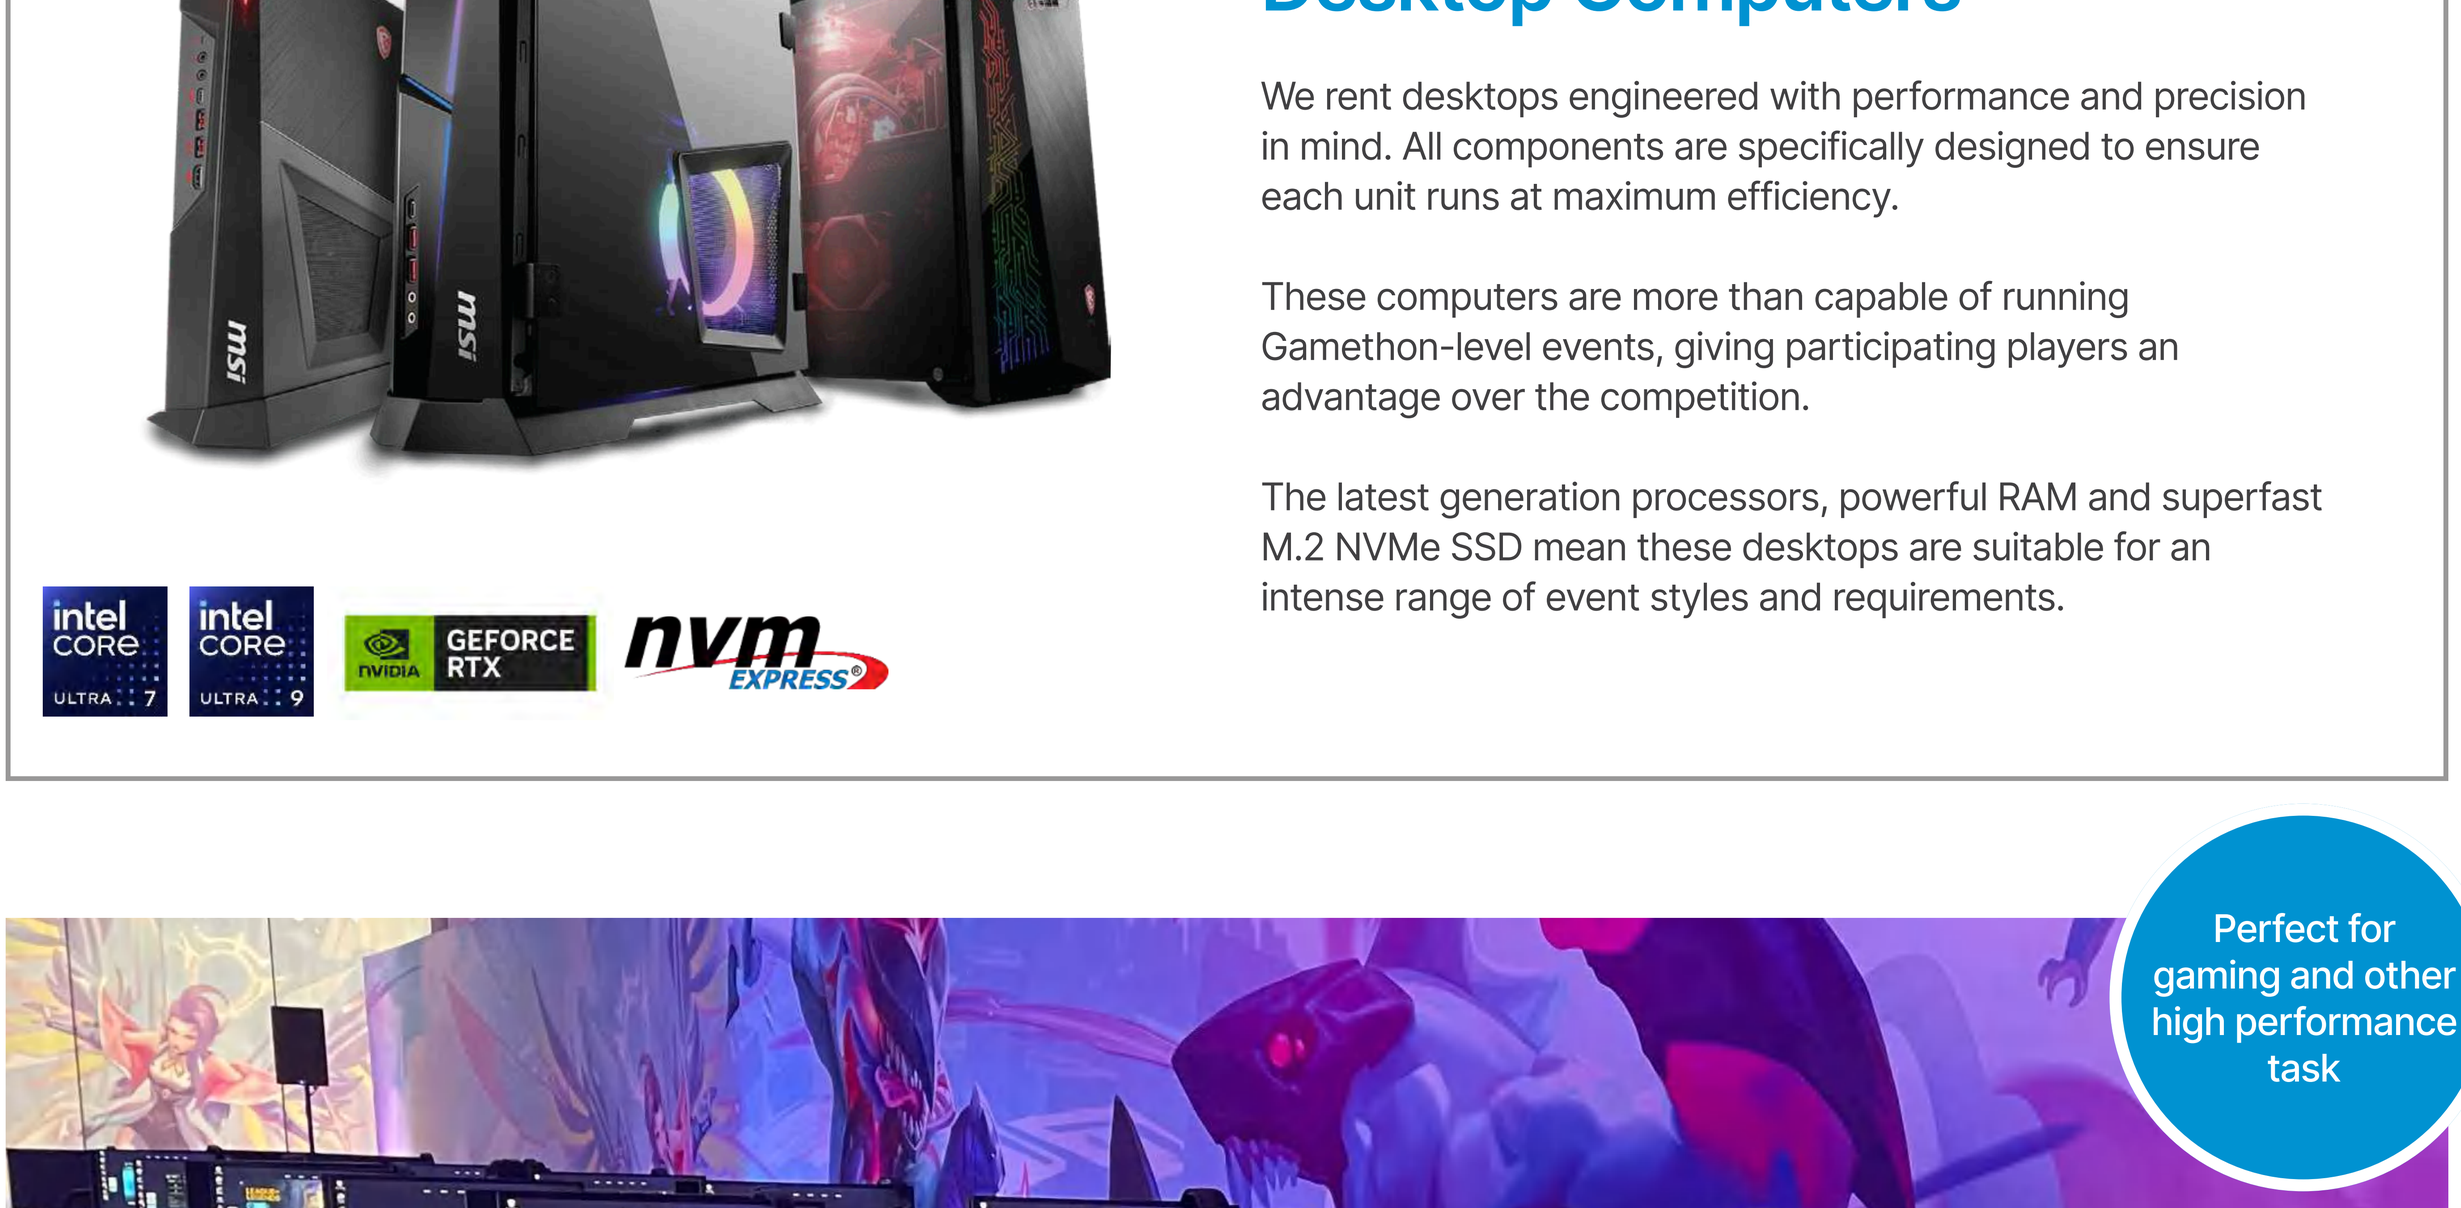
Packed with the latest processors, fast-loading SSDs and up to 64GB of RAM, these machines are versatile for various event arenas, such as gaming, large conference applications, simulations, 3-D rendering and more.

Desktop Computers

We rent desktops engineered with performance and precision in mind. All components are specifically designed to ensure each unit runs at maximum efficiency.

These computers are more than capable of running Gamethon-level events, giving participating players an advantage over the competition.

The latest generation processors, powerful RAM and superfast M.2 NVMe SSD mean these desktops are suitable for an intense range of event styles and requirements.



Perfect for gaming and other high performance task

ONEWORLDRENTAL

CABLES & ADAPTERS

Wired/Wireless Keyboard & Mouse

- Connect these accessories to a laptop or computer via Bluetooth or USB
- Perfect for meetings and conferences

Keyboard and Pen for Surface Pro

- Use with Microsoft Surface Pro
- Ideal for mobile users, digital presentations and creatives
- Fine control
- Ink flows in real time

Presentation Pointers

- Remotely control your presentations with the click of a button
- Integrated laser for manual pointing

Portable MiFi Cellular Router

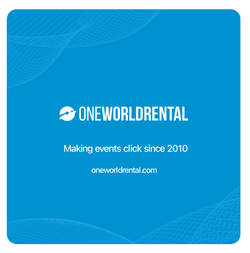
- Connect 1-7 devices to the internet at once
- Router needs a 4G SIM card to broadcast the wireless signal

Zebra Barcode Scanner

- Scan QR codes
- Type: Bluetooth / wired
- Bluetooth scanners work with iPads and Androids
- Wired scanners work with laptops

Battery Case

- Charge your phone with an integrated battery case
- The case is also strong and robust, providing protection for your smartphone



Mouse Mat

- For comfortable and controlled tracking
- Lightweight and portable
- Non-slip base

Lenovo USB-C Hub

- Compatible for USB-C devices
- HDMI Port
- Gigabit Ethernet Port
- USBC Power Delivery
- 2 USB 3.0 Ports
- SD Card Reader

Privacy Glass Filter

- This privacy glass means that only the person using the device can see the screen
- Perfect for keeping your data secure, blurs information for all except the user
- Available for mobile phones, laptops and more

Laptop Security Cable

- Allows you to securely attach products such as iPads, desktop stands or MoonBase stands to a desk or frame
- Attaches using a loop design without having to drill or alter furniture or walls in any way

Laptop Bag Pro

- Safely carry your laptop around in our Pro Protection laptop bags
- Offers additional storage for accessories such as: cables, mice and keyboards

NFC Reader

- Enables you to read contactless tags on your smartphones and tablets
- Simple to use

ONEWORLDRENTAL

CABLES & ADAPTERS

USB to Ethernet

- Easily connect your device to a router, modem, or network switch to deliver a high-speed Ethernet connection.
- Perfect for devices without an Ethernet port
- Options: 3.0 and 2.0

HDMI Cable

- Transmits audio and video from a device to a television
- Transmits in high definition such as 1080p and 4K
- Can be used to connect a laptop to a larger display or a DVD player to a television
- Various lengths available

Display Port to HDMI

- Suitable for extended desktop or mirrored displays
- Connect a computer to a HDTV, monitor and projectors

Mini Display Port

- Thunderbolt to HDMI
- Use with laptops/computers to connect a HDMI cable to monitors/projectors

VGA Cable

- Connects computers or laptops to monitors
- Can be used to connect VGA compatible devices to televisions.
- Various lengths available

USB Type-A to B 3.0 cable

- Connect USB 3.0 devices to laptops and desktop computers
- Compatible with printers, scanners and other USB peripherals
- Supports fast, reliable USB 3.0 data transfer
- Available in 1m or 3m lengths

USB Type-A to C Cable

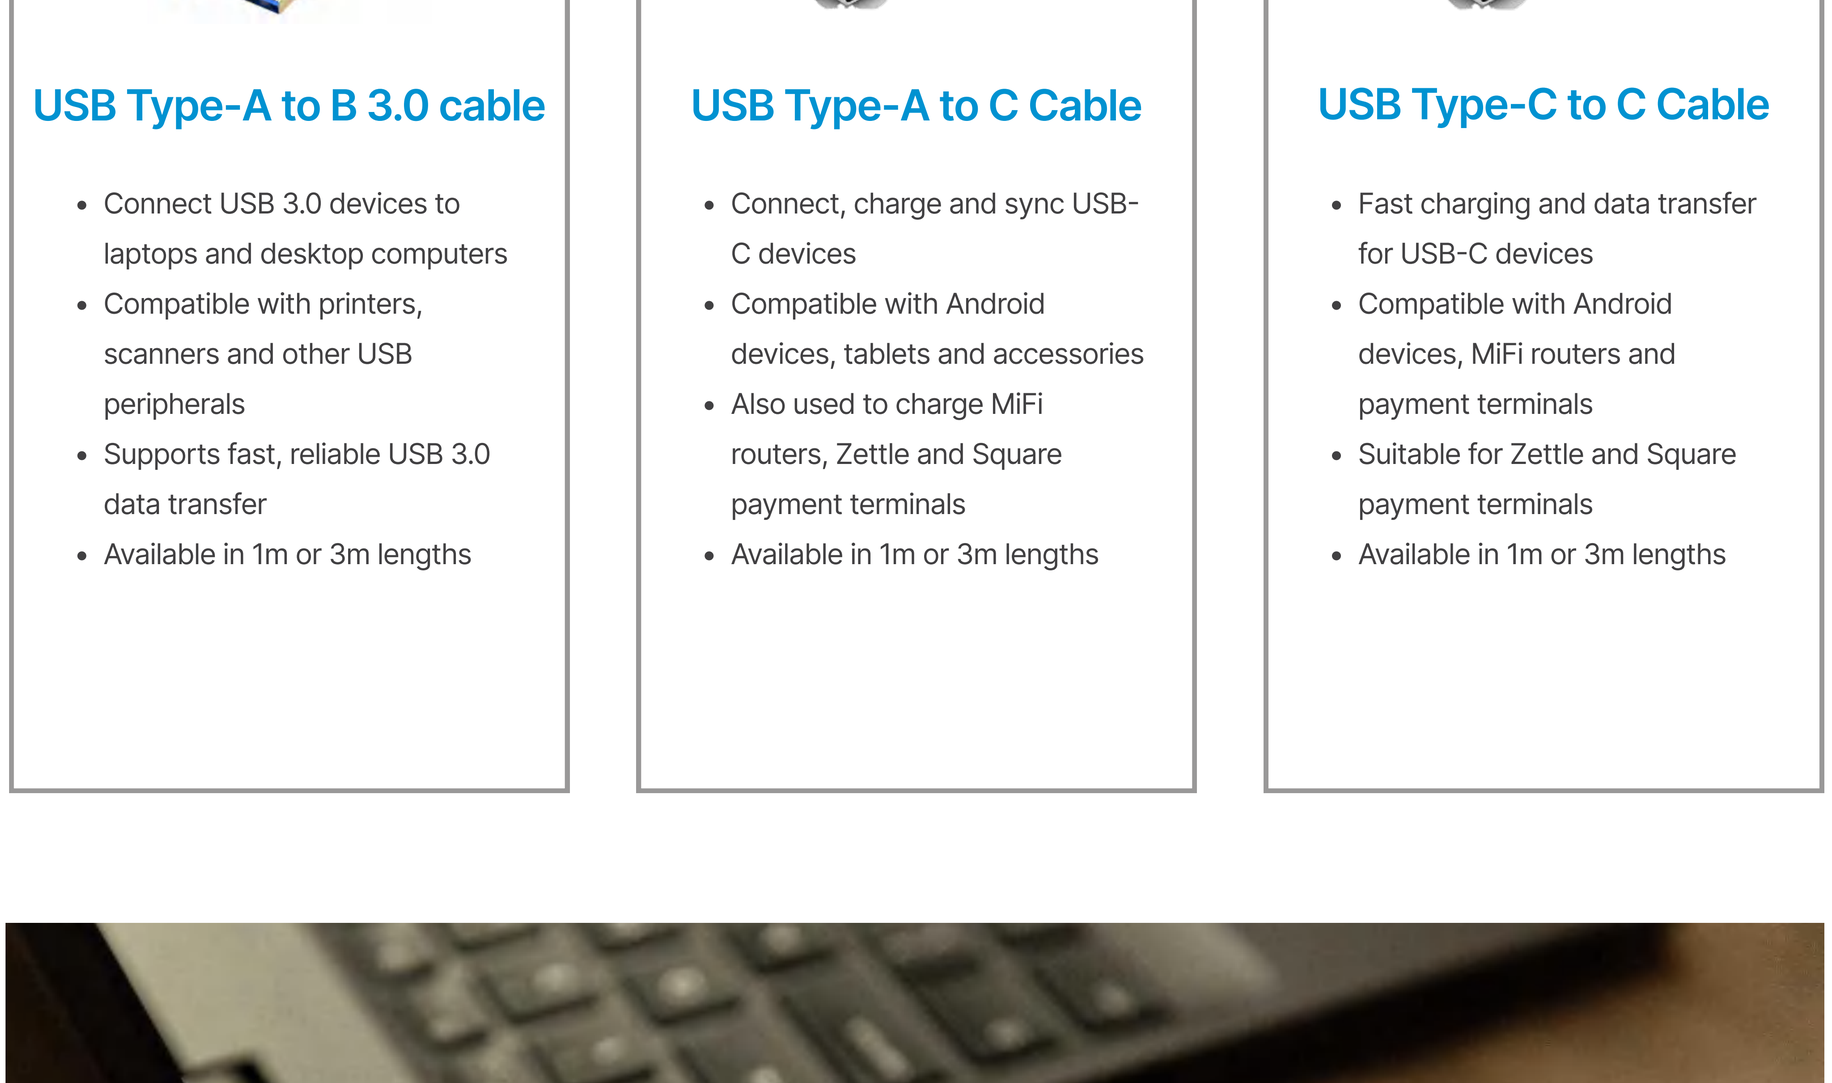
- Connect, charge and sync USB-C devices
- Compatible with Android devices, tablets and accessories
- Also used to charge MiFi routers, Zettle and Square payment terminals
- Available in 1m or 3m lengths

USB Type-C to C Cable

- Fast charging and data transfer for USB-C devices
- Compatible with Android devices, MiFi routers and payment terminals
- Suitable for Zettle and Square payment terminals
- Available in 1m or 3m lengths

CAT 6/7 Cable

- Ethernet cable which connects a router to a computer or laptop
- Can be used to transfer data over long distances
- Available in a range of sizes: 2M, 3M, 5M, 10M, 20M, 50M



ONEWORLDRENTAL

WI-FI IN A BOX

The latest in wifi delivery for people who struggle to get local broadband connection or who need a stable, regular and temporary set up.

Scalable

Each box can accommodate over 100 users, and you can quickly scale it up to meet your requirements. It provides bandwidth allocation for each user.

Simple Install

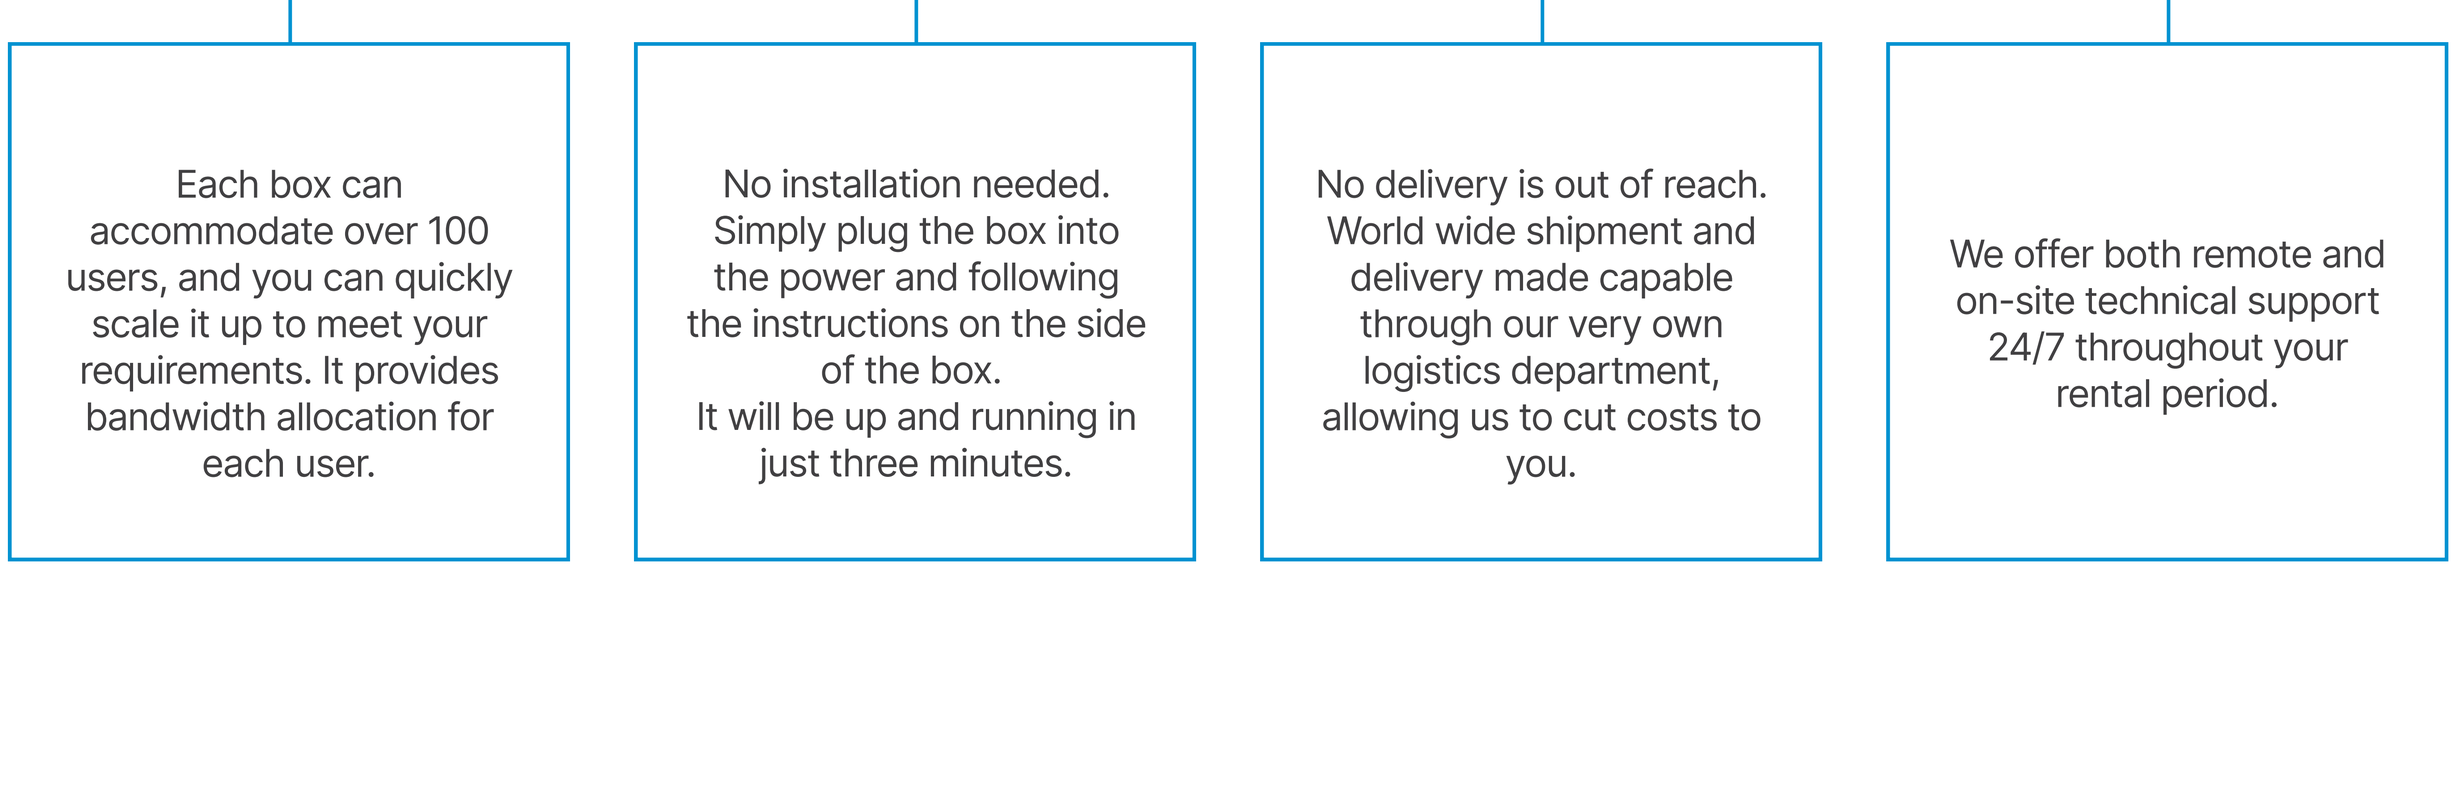
No installation needed. Simply plug the box into the power and following the instructions on the side of the box.
It will be up and running in just three minutes.

International

No delivery is out of reach. World wide shipment and delivery made capable through our very own logistics department, allowing us to cut costs to you.

Dependable

We offer both remote and on-site technical support 24/7 throughout your rental period.



ONEWORLDRENTAL

SATELLITE WI-FI SERVICES

At One World Rental, we understand the seamless connectivity is crucial during events. Whether you're organizing a small gathering or a large-scale business conference, our satellite Wi-Fi is designed to enhance your event experience.

Global Reach

One World's satellite Wi-Fi solutions are at your service, delivering reliable connectivity wherever your event takes place.

Connectivity Options

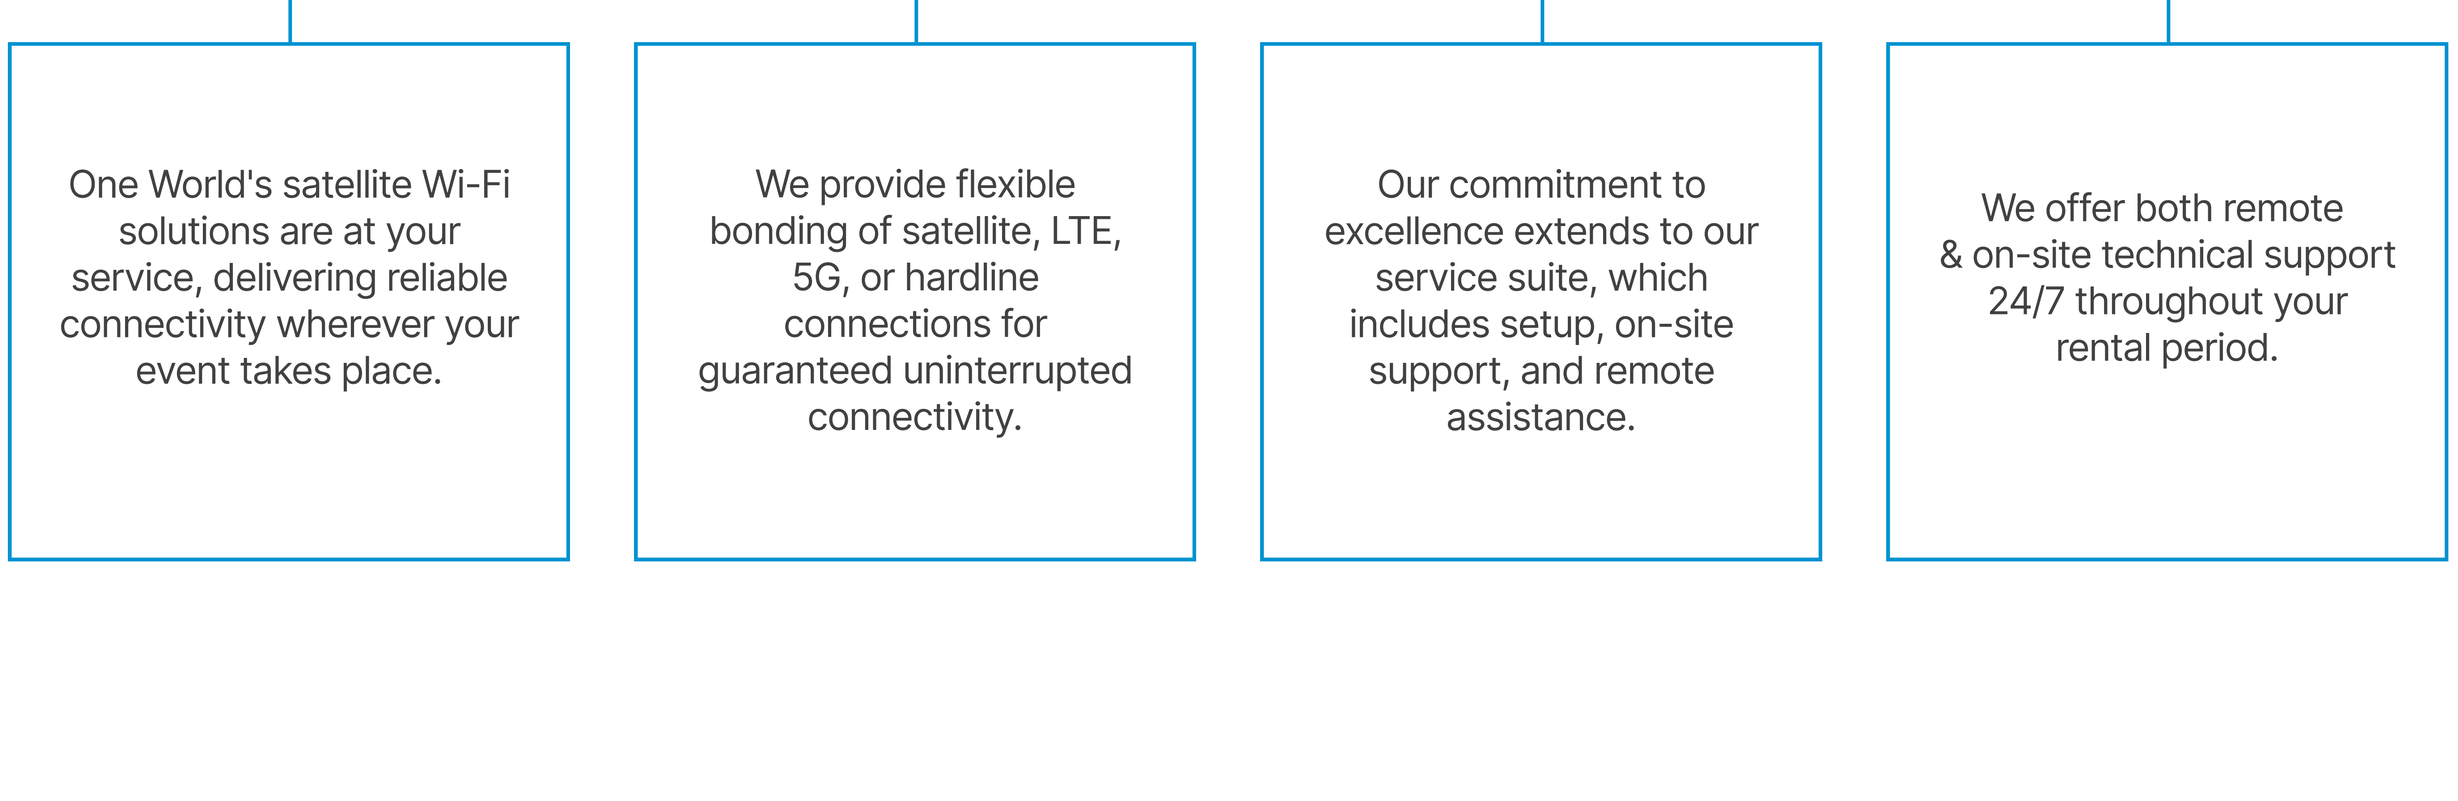
We provide flexible bonding of satellite, LTE, 5G, or hardline connections for guaranteed uninterrupted connectivity.

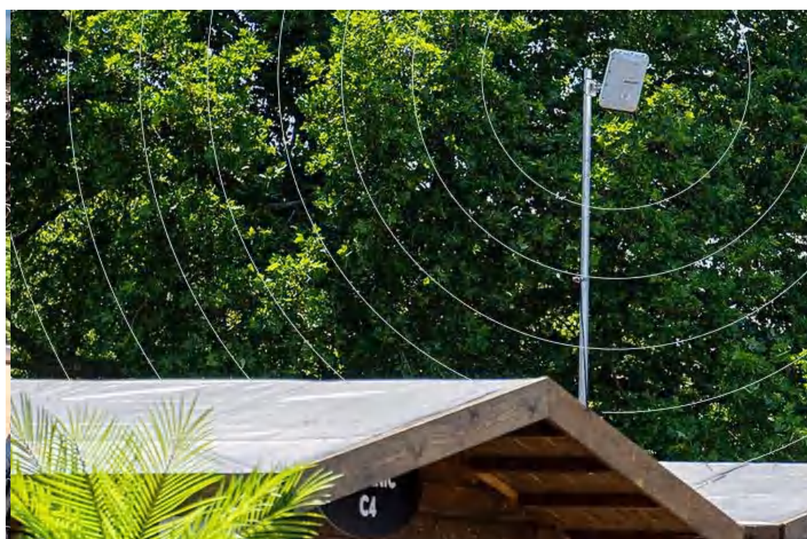
Comprehensive Services

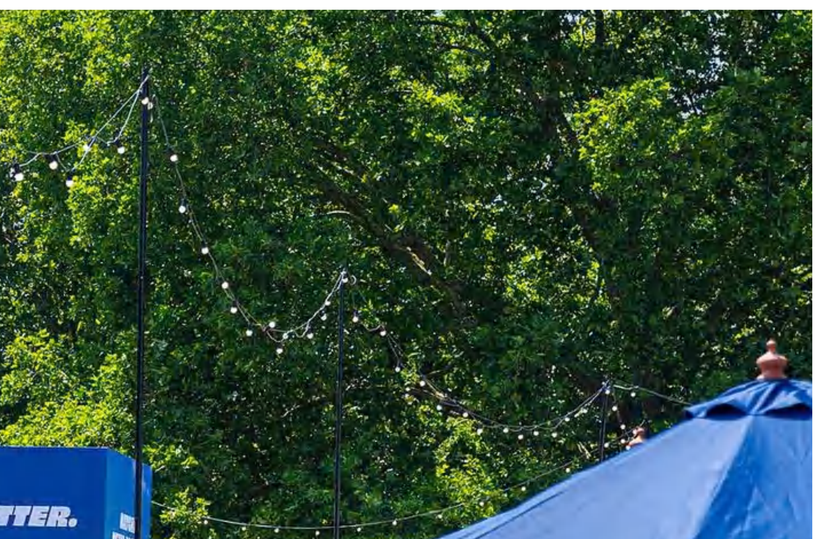
Our commitment to excellence extends to our service suite, which includes setup, on-site support, and remote assistance.

Dependable

We offer both remote & on-site technical support 24/7 throughout your rental period.







ONEWORLDRENTAL

WI-FI INTERNET SERVICES

One World Rental, has delivered Bespoke WiFi Solutions to enhance connectivity and productivity at events.

The challenge at these diverse events was providing robust and reliable WiFi connectivity to handle the high traffic loads expected from attendees, vendors, and media. Each event presented unique challenges, including remote locations, large outdoor spaces, and the need for a wide range of SSIDs to meet client requirements.

Satellite Connection

We utilise a satellite connection to ensure connectivity in remote areas. This connection is bolstered by using an Enterprise Router, which bonds 4G connections with satellite and fibre connections ranging from 1 to 10Gbps.

Point to Point Multipoint Antennas

We deploy High-range Point-to-Point and Multipoint antennas. These antenna systems are strategically positioned to enable efficient data transmission over extensive distances and across challenging terrains.

Multiple SSIDs

We use a wide range of SSIDs (Service Set Identifiers) which are created to cater to the diverse requirements of clients and attendees, offering segmented access for different user groups.

Custom Configurations

Our team of experts is currently implementing a variety of configurations to optimize network performance. This includes load balancing, channel optimization, and security measures to safeguard against potential cyber threats.

Indoor/Outdoor Access Points

We strategically place Access Points across event sites to maximize coverage. These professional-grade devices ensure stable connections for attendees across the entire area.

On-Site Support

We provide on-site support from professional network engineers and technicians during the events. This ensures that any connectivity issues or technical glitches are promptly addressed, minimizing disruptions.

- Allows numerous SIP accounts
- Unparalleled audio clarity
- Gigabit Ethernet technology

iOS & Android Applications

With this app, calling from over 3G or fromany WiFi hotspot is extremely reliable, as well as user-friendly.

- Make and receive calls from yoursmartphone – at no cost
- Set your status to 'available', 'away' and out of office' from your smartphone
- See the status of your colleagues from anywhere

Web Tool

Take advantage of video conferencing as an online meeting tool.

- Launch calls on your desk phone from your desktop
- Access to full range of UnifiedCommunications features
- Easy to use and manage
- Work seamlessly as if you were in the office and save on call costs

Instant Number Provision and SIP Trunking Solutions from anywhere in the world.

Local Number DIDs for a range of event types, including temporary and permanent office setups.

ONEWORLDRENTAL

PROJECT OFFICES

From detail and design, to delivery & deployment of event infrastructure

We provide Leased Lines & Ethernet Circuits, Multi-Site WANs and Project Management, giving our clients that extra peace of mind. Our services are perfect for video conferences, temporary or permanent office setups, business conferences and more.

Leased lines & ethernet circuits

Fully scalable bandwidth right up to 10Gb, offering uncontended data circuits with industry-leading SLAs. This solution is suitable for events demanding the most reliable, high-performance circuit needed for business voice, video, and data applications, whether used for Internet, MPLS, or site-to-site access.

Multi-site WANs

Suitable for any sized event that operates across multiple office locations, has remote workers, or is utilising services in the cloud. From next-generation MPLS networks to VPN and point-to-point circuits, our WAN solutions are designed to provide high-speed, secure, and ultra-reliable inter-site and internet connectivity.

Project Management

From design to delivery and deployment of event infrastructure, OWR Project Management partners with you from concept to system design and installation through to the moment of “go-live” and derig. Our solutions and services are underpinned by expert project management every step of the way. After all, providing premium products and systems is only part of the story —how they are delivered, deployed, and supported is every bit as crucial.

Fulfilling specific client event needs from all corners of the globe.

Giant Tablets

Giant Tablet magnifies the smartphone interface using an extra-large touchscreen. Content is showcased and presented in a familiar way - it looks like a giant smartphone. Giant Tablets are big, they’re fun to engage with, and your consumers already know how to use them.

These multiple award-winning products draw people in, create buzz at events, and best of all, increase sales. Use them at exhibitions and trade shows, in retail and hospitality, for education teaching and training, app development, live broadcasts and presentations, and more.

Giant Tablet 27”

A versatile solution to support your presentations and trade show.

- Screen Size: 27”
- Aspect Ratio: 16:9
- Panel: AMVA + LED
- Resolution: 1920 × 1080
- Camera: Yes
- Dimensions: 81cm x 7cm x 44.2cm

Giant Tablet 42”

The flagship interactive engagement solution for events.

- Screen Size: 42”
- Aspect Ratio: 16:9
- Panel: AMVA + LED, AG Coated glass
- Resolution: 1920 × 1080
- Dimensions: 164cm x 11cm x 60.5cm

Giant Tablet 55”

The newest giant touchscreen solution – promoting brands.

- Screen Size: 55”
- Aspect Ratio: 16:9
- Panel: IPS LED, AG Coated glass
- Resolution: 1920 × 1080
- Dimensions: 235cm x 58cm x 114cm

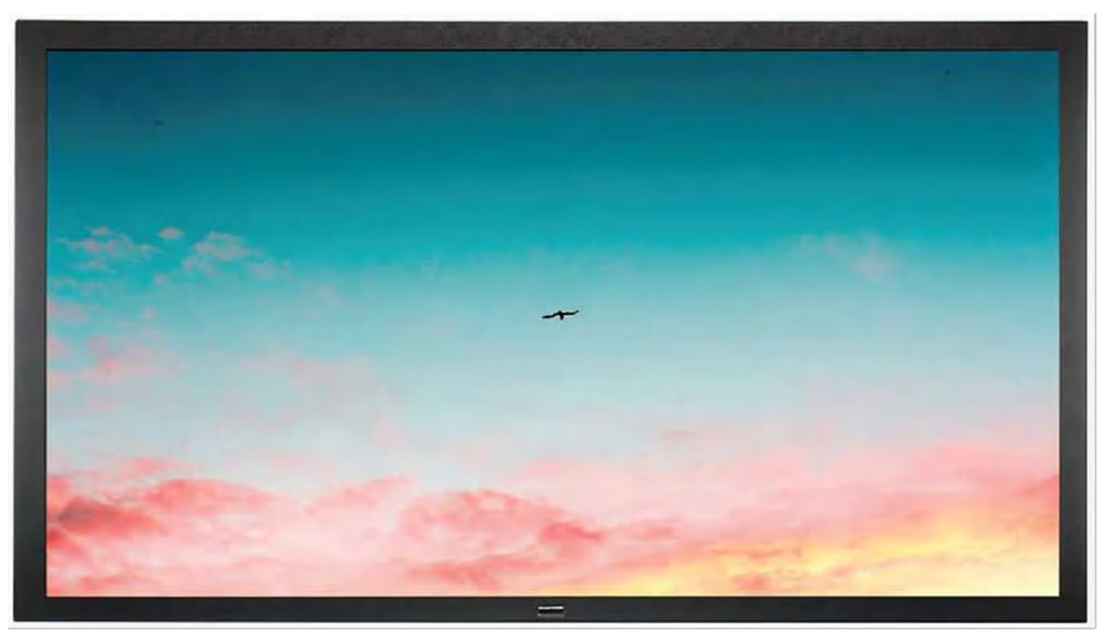
VISUAL

Digital Signage

The purpose of digital signage is to create, inspire and inform. We provide customisable services, using software, to post your Instagram feeds, Twitter competitions, pre-load content to appear onscreen, play video loops and more. This is useful for festivals with rolling bar prices and other real-time information.



TV Screen / Digital Signage Monitors

Sizes available: 32”, 55”, 85” & LED Panels

Available in: Samsung, LG, Panasonic, iiyama

We currently hold the best technology brands in the industry.

From digital signage, to simple monitors and TVs, Android-ready screens, Magic Touch technology, available with different stands to accommodate different event types.

We use Unicol® stands, ensuring great looking and safe setup.

Touch Screen Monitors

Sizes available: 27”, 32”, 43”, 55”, 65”, 75”

All of our touch screens use capacitive touch technology.

This technology uses a sensor-grid of micro-fine wires integrated into the glass that covers the screen.

Thanks to the glass overlay this technology is highly durable, and the touch function remains unaffected even if the glass is scratched. It offers perfect picture performance and will work with a human finger (also latex gloved) and stylus-pen.

We constantly upgrade our stock, current sizes available may not correspond to our updated inventory.

PICO 4 / PICO NEO 3

Mobile Virtual Reality headset.

- Field of view: 101°
- RAM: 4GB
- 4K resolution
- OS: Qualcomm Snapdragon 845
- Enterterprise Functionality
- Battery: 2hrs

Virtual reality creates a three-dimensional, computer generated environment can be explored by an individual or group of people.

It creates a fun ‘optical illusion’ which many industries use to promote new games or schools utilise for an interactive learning experience. Virtual Reality can be integrated with apps on Samsung phones and combined with MSI gaming laptops for the full engaging Virtual Reality experience. Our equipment enables users to:

- Engage guests with live tours
- Create fun games and competitions
- Virtual reality gamification
- 360-degree virtual experiences

How is AR different to VR?

Virtual reality means computer-generated environments for a user to interact with, and be immersed in. Augmented reality adds and enhances the reality a user would ordinarily see rather than replacing it.

Augmented reality can provide many benefits to any kind of corporate and public organisation, it allows for organisers to implement:

- Product demos and visualisation
- Interaction through virtual learning
- Broadcasting of live events
- AR can aid in visualising office spaces
- The integration of AR apps
- Social interaction apps
- Translate foreign texts and menus

Google sky (AR) · **Locator (AR)** · **Layar (AR)** · **Spotcrime (AR)** · **Pokemon go (AR)** · **Sunseeker (AR)**

SERVERS

From detail and design, to delivery & deployment of event infrastructure

At OWR, we provide Leased Lines & Ethernet Circuits, Multi-Site WANs and Project Management, giving our clients that extra peace of mind. Our services are perfect for video conferences, temporary or permanent office setups, business conferences and more.

Onsite tech support

Our onsite technicians can provide support with ad hoc onsite tasks and the installation of devices, and can setup, and secure reliable Wi-Fi network configuration. We provide onsite tech support and training for event staff.

Project management

We'll provide project management from full consultation to event completion. This includes liaising with venue staff on all planning elements, arrangements for setup, installation, content and configuration.

Site surveys

We can visit event locations and conduct site surveys and collect information that will enable us to provide the best technical solutions. We evaluate any potential risks or hazards to ensure a smooth and safe operation.

Custom software

We offer bespoke app and software building for each event. This can include menus, form creation, payments, seating charts and floor plans, VIP alerts, splash pages, and social media tracking, among other features.

Operational expertise

We can ease your stress and handle all the logistics and operations for your event. We'll organise the deployment and distribution with efficient transportation to get it exactly where you need it, when you want it.

Pre - configuration

Preconfiguring products and systems ensures you're able to simply plug and play without installing or aligning technical settings. We also offer digital marketing through video creation and integration with digital signage.

Wi-Fi installation

We deliver fast, secure Wi-Fi for any event, anywhere in the world, regardless of existing infrastructure or bandwidth needed, including MiFi, Access Points, hardline, satellite and personalised bonded internet.

Consultancy

We provide consultancy services for event planning, management and logistics from conception to completion to get the best outcome. Our recommendations are based on over a decade of global experience.

ONEWORLDRENTAL

OWR LOGISTICS

EVENT STAFF

Staff/Engineers

We have an extensive team of professional staff and engineers to help make your event as successful and memorable as possible.

Our team of event staff is comprised of IT & AV technicians and network & lighting engineers.

These highly skilled professionals are experts in custom-configuring hardware, installing equipment and providing the best possible experience for our clients.

IT technicians

Our highly skilled IT technicians will install and configure your hardware and monitor it for any issues. They can customise, create, and configure iOS or Windows software as well as install EPOS equipment.

AV technicians

We can configure and install AV equipment for any size event, including setup of digital signage, live streaming, broadcasting, cable installation, projection, speakers, mics, diagnostics and monitoring live feeds.

IT/AV assistant

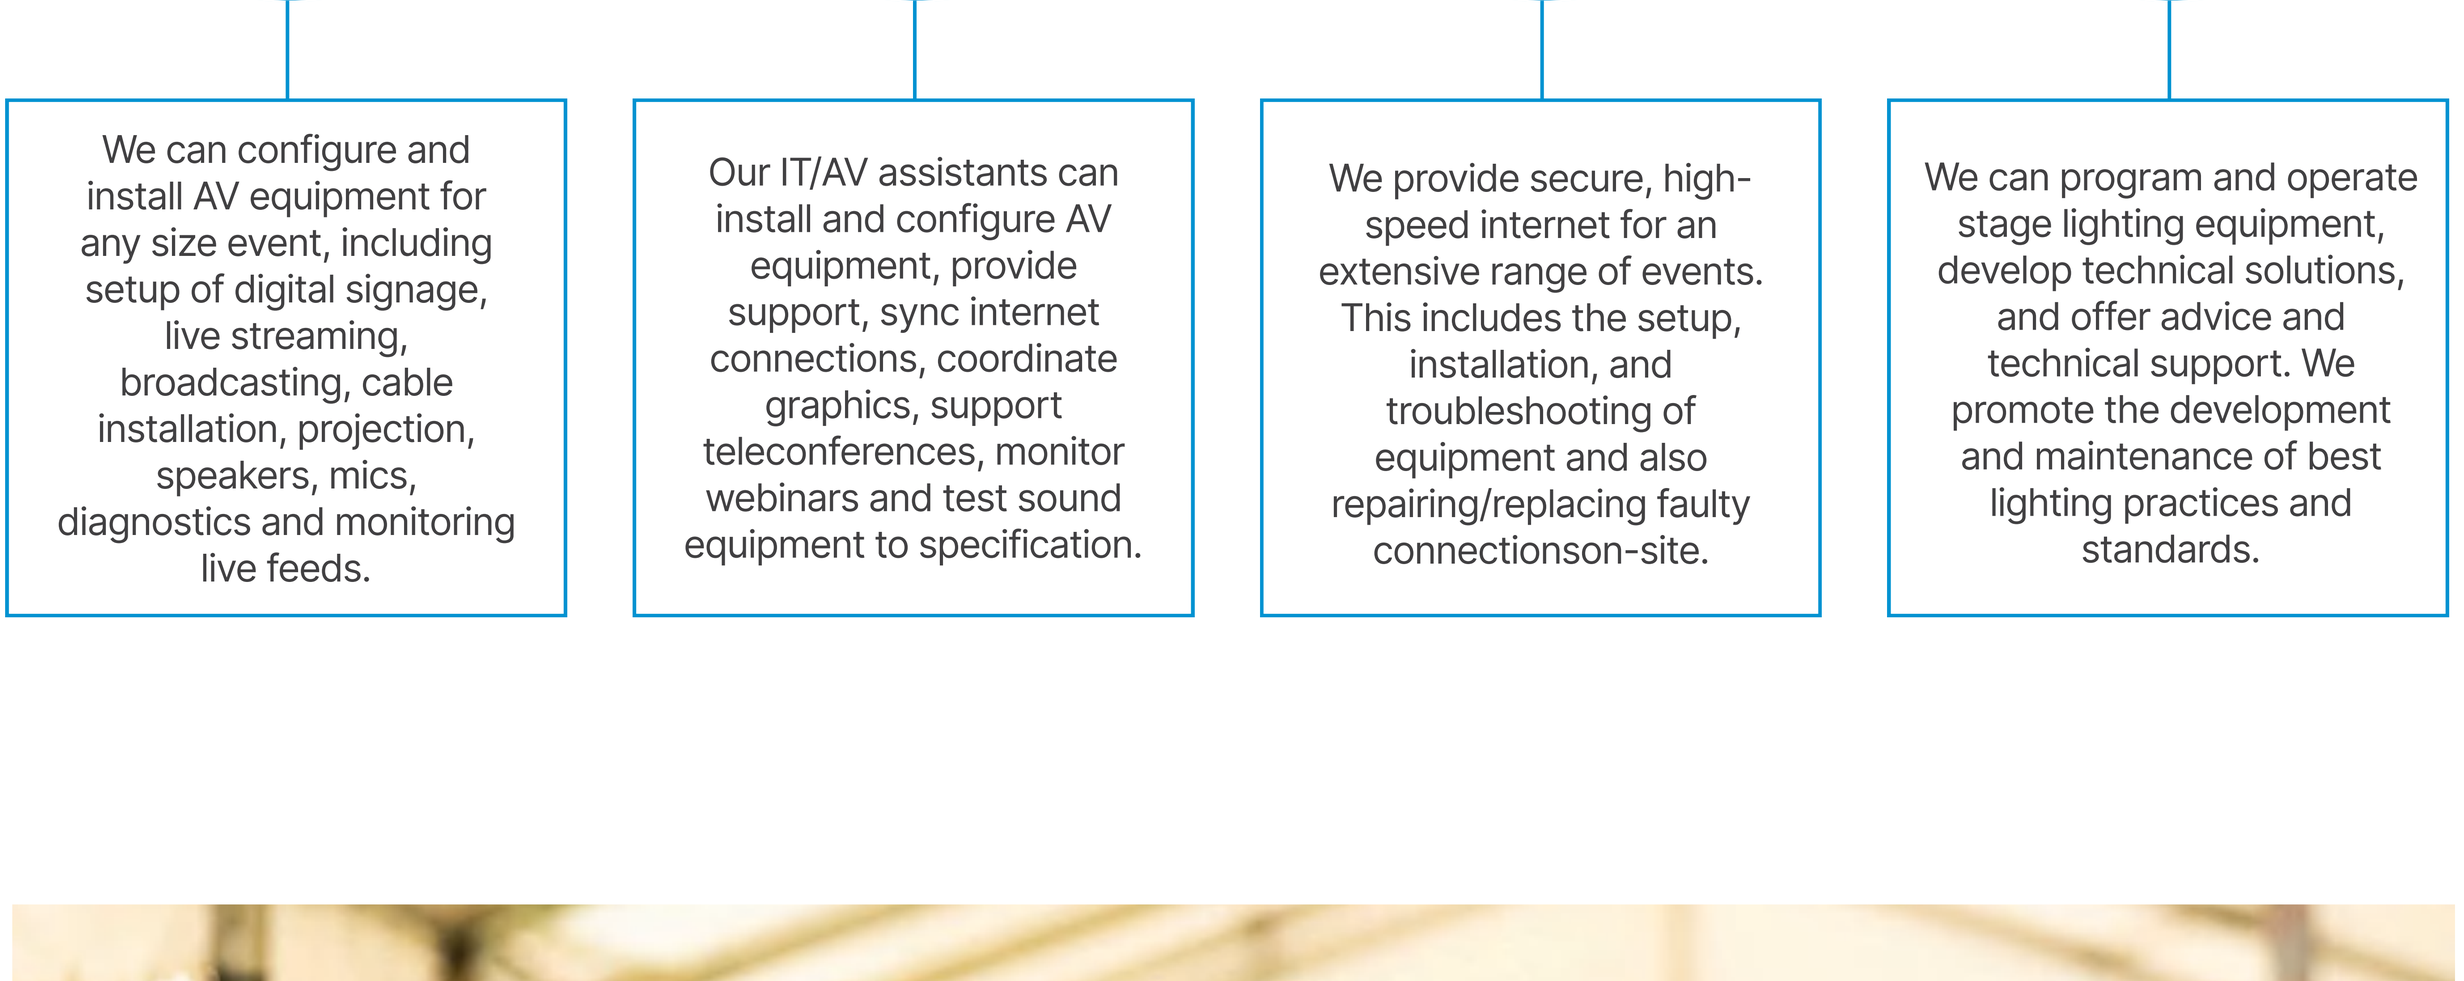
Our IT/AV assistants can install and configure AV equipment, provide support, sync internet connections, coordinate graphics, support teleconferences, monitor webinars and test sound equipment to specification.

Network engineers

We provide secure, high-speed internet for an extensive range of events. This includes the setup, installation, and troubleshooting of equipment and also repairing/replacing faulty connectionson-site.

Lighting engineers

We can program and operate stage lighting equipment, develop technical solutions, and offer advice and technical support. We promote the development and maintenance of best lighting practices and standards.



Event technicians with local knowledge and global experience.

MANAGED SERVICES

Quality Assurance

One World Rental provides a fast, reliable and consistent service including Health & Safety, international coverage and 24/7 global support.

Our dedicated, professional staff are here to help make your event as successful and memorable as possible.

Health & Safety

All of our equipment is checked and monitored regularly and undergoes PAT (Portable Appliance Testing) to meet electrical safety standards. Our equipment is sound, safe, and in perfect condition.

International coverage

One World Rental can deliver technology anywhere with as little as 24 hours' notice. We have global offices and storage facilities which help us to quickly and efficiently deploy event technology and technical staffing.

24/7 Global support

We offer 24/7 technical support during your entire rental period to make sure everything runs efficiently at all times. This can include remote support or an on-site technical presence throughout the event to make it effortless.

Project managers

Our dedicated project managers manage and coordinate complex events to deadline and specific requirements. Educated in logistics and trained accordingly, they'll execute each event precisely, everytime

Graphic designer

Our graphic designers create artwork that connects with your branding and vision. We'll produce layouts and designs that can solve any digital marketing challenge while showcasing flawlessly at events.

Video producers

Videography and production through visual storytelling. We create content for digital signage and broadcasting at events, conferences and festivals. Professional filming and post production starts here.
